

Personal profile

Prof.Dr.Habil. Saulius Sliupa

Company

Institute of Geology and Geography

Saulius Sliupa is Senior Researcher of the Institute of Geology and Geography Lithuania (IGGL) and Professor of Vilnius University. His main interest is in the Analysis of Sedimentary Basins with emphasis on geodynamics, tectonics, sedimentation systems and diagenesis, reservoir evaluation. He is developing assessment of UGS, characterization of geological media for deep geological disposal of radioactive wastes, seismic hazard assessment of nuclear facilities. He is involved in studies of geothermal energy and potential geological storages of CO₂.

His background is in Engineering Geology and Hydrogeology.
